The grades are generally awarded on a relative basis within the minimum and maximum marks for F and A grades. The numerical equivalence of the letter grades together with corresponding qualitative placement of a student in a course is illustrated through the following table:

Performance	Grade	
	Letter	Numeric Equivalence
	Grades Counted in GPA	
Exceptional	A+	4.0
Outstanding	A	4.0
Excellent	A-	3.7
Very Good	B+	3.3

*The qualifying alphabet of F will be given by the teachers depending upon the academic record of the students.

Grade Descriptions

A Outstanding performance, demonstrating a superior understanding of the subject matter, a foundation of extensive knowledge, and a skillful use of concepts and/or materials.

B Good performance, demonstrating capacity to use the appropriate concepts, a good understanding of the subject matter, and an ability to handle problems and materials encountered in the subject.

C Adequate performance, demonstrating an adequate understanding of the subject matter, an ability to handle relatively simple problems, and adequate preparation for moving on to more advanced work in the field.

D Minimally acceptable performance, demonstrating at least partial familiarity

with the subject matter and some capacity to deal with relatively simple problems, but also demonstrating deficiencies serious enough to make it inadvisable to proceed further in the field without additional work.

F Failed. This grade signifies that the student must repeat the subject to receive credit.

P/NC The credits and grades are not used in the computation of the GPA. It will be displayed on the Final Transcript.

W/W-F has no numeric equivalent and credits for withdrawn courses will not be counted towards the credits taken for the semester. A grade of W means that the student was passing the course at the date of withdrawal. W -F means that the student was failing the course at the date of withdrawal.

It will be displayed on the Final Transcript.

I In-complete. This grade indicates that part of the subject requirements has not been fulfilled. The work should normally be completed before Add/Drop period of the succeeding semester. However, the faculty member in charge has the discretion to set an earlier or later date for pedagogical reasons or extenuating circumstances.

An (R), for repeated, will be visible on the transcript only when the same course has been repeated. The F grade is excluded from the calculation of the GPA only when it has been replaced with a better grade in the same course.

In case the same core or elective course is not offered again, the student may apply to the relevant Head of Department who may approve a substitute course, following the approval of the Academic Council.
